Learning Outcomes

Course Learning Outcomes

This course is designed to keep the learner at the centre of the learning process, by emphasizing the exploration of meaning and content knowledge through personal and interpersonal discovery. FRHD*1020 was developed with consideration to the University of Guelph Learning Objectives. The general objective is to expand students' knowledge of current conceptual frameworks and research studies in the area of couple and family relationships.

By the end of this course, you should be able to:

1. Help create a dynamic, exploratory, respectful and inclusive learning environment for both students and instructor in an online learning environment;
2. Demonstrate a global understanding of issues impacting couples and families, comprehending the variety of political, religious, cultural, biological, social, and historical forces that influence family life;
3. Illustrate an appropriate depth and breadth of understanding of couple and family relations and dynamics, recognizing the implications of course content and putting it into a broader context;
4. Demonstrate an increased understanding of how dominant social values and the unequal structure of opportunities within any particular social context influence people's choices about family life;
5. Review historical trends in family structure within the Canadian context;
6. Develop acceptance and understanding related to family issues; specifically, to aspects of couple and family dynamics which can be considered and evaluated in many ways. It is hoped that students will become more open, aware and accepting of the diverse family structures, lifestyles and value systems of others, especially those which are divergent from their own;

7. Formulate independence of thought, and the ability to challenge accepted truths about the family and think critically about the family as it appears in research and the media;
 8. Differentiate and understand the various forms of inquiry used in couple and family research, and be able to assess the strengths and limitations as well as the cultural and historical impact of these forms;
 9. Employ a love of learning, or intellectual curiosity, regarding couple and family relations and dynamics, by getting personally involved with course content, and reflecting on the personal experiences that have contributed to your family's development and the values you hold related to couple and family relationships;
 10. Examine your own experiences and be self-aware, values and biases in relation to the various dimensions of family and couple relationships; and challenge one's own beliefs, attitudes and values regarding these relationships;
 11. Critique the personal and practical implications of course content; becoming informed, about issues related to family life that will enable you to better understand the dynamics of your own family, and enhance your family life experience; and
 12. Expand their knowledge of individual decision-making regarding couple and family relationships.

Assessment Descriptions

Annotated Bibliography

The purpose of this assignment is to help you further develop your research, academic writing, and critical evaluation skills. You will do this by selecting appropriate sources for a paper that uses research to support an argument. These skills are essential for your success as a student. Refining these skills will not only help you produce high quality work, it will also make it easier for you to produce that work (as you will spend less time figuring out how the mechanics of academic writing).

Online Midterm Test

The online midterm test is based upon the information in chapters 1, 2, 3, 4, 5, 6, 9, and 12 of the textbook. It consists of 60 multiple choice questions that you will complete within the **Quizzes** tool (located in the Tools dropdown list in the navbar). There is a practice quiz (ungraded) on CourseLink that will be available as of June 11th to assist students in preparing for the online midterm test.

Online Discussion and Reflection Report

Every two weeks there will be three questions posted in the **Discussions**. You will write a two-page report using some of your contributions to these discussions as evidence to support your personal evaluation.

Final Exam

This course requires you to write a traditional sit-down final exam. Final exams are written on campus at the University of Guelph or at alternate locations for students at a distance. The final examination format is exclusively multiple choice and draws from information in chapters 7, 8, 10, 11, 13, 14, 15, and 16 of the textbook.

It is assumed that all DE students will be writing their final examination on campus at the University of Guelph. University of Guelph degree and associate diploma students must check [WebAdvisor](#) for their examination schedule. Open Learning program students must check the [Open Learning Program Final Examination Schedule](#) for their examination schedule.

If you are studying at a distance, you can request to write your final exam at an alternate location. It is recommended that you make arrangements as early as possible in the semester since changes cannot be guaranteed after the deadline. Exam schedules for off-campus exams will be emailed by Week 9 of the course. For more information, please visit [Final Exams](#).

Communicating with Your Instructor

During the course, your instructor will interact with you on various course matters on the course website using the following ways of communication:

- **Announcements:** The instructor will use **Announcements** on the Course Home page to provide you with course reminders and updates. Please check this section frequently for course updates from your instructor.
- **Ask Your Instructor Discussion:** Use this discussion forum to ask questions of your instructor about content or course-related issues with which you are unfamiliar. If you encounter difficulties, the instructor is here to help you. Please post general course-related questions to the discussion forum so that all students have an opportunity to review the response. To access this discussion forum, select **Discussions** from the **Tools** dropdown menu.
- **Email:** If you have a conflict that prevents you from completing course requirements, or have a question concerning a personal matter, you can send your instructor a private message by email. The instructor will respond to your email within 48 to 72 hours.

- **Skype:** If you have a complex question you would like to discuss with your instructor, you may book a Skype meeting. Skype meetings depend on the availability of you and the instructor, and are booked on a first come first served basis.

Netiquette Expectations

For distance education courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.

Inappropriate online behaviour will not be tolerated. Examples of inappropriate online behaviour include:

- Posting inflammatory messages about your instructor or fellow students;
- Using obscene or offensive language online;
- Copying or presenting someone else's work as your own;
- Adapting information from the Internet without using proper citations or references;
- Buying or selling term papers or assignments;
- Posting or selling course materials to course notes websites;
- Having someone else complete your quiz or completing a quiz for/with another student;
- Stating false claims about lost quiz answers or other assignment submissions;
- Threatening or harassing a student or instructor online;
- Discriminating against fellow students, instructors, and/or TAs;
- Using the course website to promote profit-driven products or services;
- Attempting to compromise the security or functionality of the learning management system; and
- Sharing your username and password.

Submission of Assignments to Dropbox

Assignments 1 and 3 should be submitted electronically via the online **Dropbox** tool. When submitting your assignments using the **Dropbox** tool, do not leave the page until your assignment has successfully uploaded. To verify that your submission was complete, you can view the submission history immediately after the upload to see which files uploaded successfully. The system will also email you a receipt. Save this email receipt as proof of submission.

Be sure to keep a back-up copy of all of your assignments in the event that they are lost in transition. In order to avoid any last-minute computer problems, your instructor

strongly recommend you save your assignments to a cloud-based file storage (e.g., Google Docs), or send to your email account, so that should something happen to your computer, the assignment could still be submitted on time or re-submitted.

It is your responsibility to submit your assignments on time as specified on the Schedule. Be sure to check the technical requirements and make sure you have the proper computer, that you have a supported browser, and that you have reliable Internet access. Remember that **technical difficulty is not an excuse not to turn in your assignment on time**. Don't wait until the last minute as you may get behind in your work.

If, for some reason, you have a technical difficulty when submitting your assignment electronically, please contact your instructor or [CourseLink Support](#).

<http://spaces.uoguelph.ca/ed/contact-us/>

Late Policy

If you choose to submit your individual assignments to the **Dropbox** tool late, the full allocated mark will be reduced by 10% per day after the deadline for the submission of the assignment to a limit of five days at which time access to the **Dropbox** folder will be closed and you will receive a grade of 0%.

Extensions will be considered for medical reasons or other extenuating circumstances. If you require an extension, discuss this with the instructor as soon as possible and well before the due date. Barring exceptional circumstances, extensions will not be granted once the due date has passed. These rules are not designed to be arbitrary, nor are they inflexible. They are designed to keep you organized, to ensure that all students have the same amount of time to work on assignments, and to help to return marked materials to you in the shortest possible time.

Obtaining Grades and Feedback

Unofficial assessment marks will be available in the **Grades** tool of the course website.

Your instructor will have grades posted online within 2 weeks of the submission deadline, if the assignment was submitted on time. Once your assignments are marked you can view your grades on the course website by selecting **Grades** from the **Tools** dropdown menu on the navbar. Your course will remain open to you for seven days following the last day of the final exam period.

University of Guelph degree students can access their final grade by logging into [WebAdvisor](#) (using your U of G central ID). Open Learning program students should log in to the [OpenEd Student Portal](#) to view their final grade (using the same username and password you have been using for your courses).
