Learning Outcomes

Course Learning Outcomes

By the end of this course, you should be able to:

1. Describe traditional and contemporary views of, and research on, health and wellness concepts, including mental, emotional, nutritional, physical, social, environmental, and spiritual dimensions;
2. Identify and evaluate values, attitudes, behaviours, and lifestyle changes that impact health and wellbeing;
3. Provide examples of how the dimensions of wellness are interconnected, as well as how they are connected to overall personal health and wellbeing;
4. Identify and access health and wellness services and resources, on and off campus;
5. Develop strategies to support your current and ongoing personal health, wellness and academic success.

Teaching and Learning Activities

Method of Learning

This course will use a modular approach where you will learn about various issues on health and wellness. The units include activities, videos, and thought-provoking questions to stimulate your learning related to the unit content.

Course Structure

This course is divided into 12 distinct units.

- Unit 01 Introduction to Health and Wellness
- Unit 02 Transition to University
- Unit 03 Psychosocial Health (Mental Health)
- Unit 04 Personal Stress Management
- Unit 05 Alcohol and Tobacco Use
- Unit 06 Drug Use and Misuse
- Unit 07 Personal Nutrition
- Unit 08 Physical Activity for Fitness and Health
- Unit 09 Social Support and Relationships
- Unit 10 Gender, Sexuality and Sexual Health
- Unit 11 Environmental Health
- Unit 12 Spiritual Health

Expectations

The online material for each unit has been designed to complement the textbook reading. Be aware, however, that not all of the assigned chapter reading will reappear in the online material. Likewise, there will be some vital information in the unit online material that will not be covered in the textbook. **You need to do the readings of the assigned chapters before you engage with the online material that is provided in the units.**

Each unit is made up of two to three major topic sections and will use several tools to communicate the subject matter of this course, including instructional text, learning activities, diagrams/charts, pictures/visuals, and academic readings. The typical structure of each unit will be comprised of several sections, including:

- **Unit Introduction and Learning Outcomes:** You should begin every unit by reading this section. The introduction sets the stage for the unit and the outcomes will help guide your efforts as you work your way through the unit. In

addition, an interactive activity, **Test Your Knowledge**, aims to get you thinking about some of the concepts you have just learned. The activity is replete with references that you are encouraged to visit and to learn more about the concepts. The references are located below the activity, “Review Primary Sources Cited in Your Knowledge Activity.”

- **Unit Content:** After reading the required Chapter, review the instructor’s notes on the key issues in the unit to guide you through the learning process. These notes are organized in a thematic fashion and broken down into 2-3 major topics. Typically, the last section refers specifically to health information targeted to university students.
- **Unit Flashcards:** The collection of flashcards is centered around the key concepts of the Unit. By clicking on the flashcards will turn them over. This is optional but a way to help you remember the key definitions. Note: There are no flashcards for Unit 02, as there are no readings for Unit 2.
- **Unit Conclusion:** This section reviews the main ideas and key take-away points of the unit. At the end of this section, you will find a list of the sources cited in the unit. You are encouraged to review the sources for further reading.

There will be reoccurring activities in each unit. One such activity will be **Reflection Break Activity**. Pay attention to this “green” callout box, as the questions/resources provided will help you think about the readings and materials you have just reviewed and apply them to your context. These activities take the form of reflections and are designed to help you gauge understanding of the materials covered in the unit. For each unit in which there is a “reflection break” activity, you are encouraged to complete it, using the questions provided as a guide. While these activities are **not** graded, your engagement in these exercises may help you verify knowledge and reflect on your learning experience towards meeting the learning outcomes.

You will also find a number of embedded videos throughout the course. They aim to offer visual case scenarios and/or other relevant information that are directly or indirectly related in support of unit content.

Schedule

It is strongly recommended that you follow the course schedule provided below. The schedule outlines what you should be working on each week of the course and lists the important due dates for the assessments. Assessment Descriptions

SMART Goals Assignments (30%)

SMART Goals (Part 1) Assignment: Wellness Report (15%)

For the first assignment, Wellness Report, you will complete the Wellness Inventory, to determine your wellness strengths and areas for improvement, review the SMART Goals framework, create three goals based on this framework and your Inventory scores, describe how the pandemic is influencing your current wellness and your goals, and describe three supports or resources you think will be useful in achieving your goals.

SMART Goals (Part 2) Assignment: Reflection Report (15%)

For the second assignment, Reflection Report, you will review your SMART goals, discuss your progress towards these goals and any challenges or supports, and provide three suggestions for students trying to maintain their health and wellbeing during the pandemic.

See the Assessments tab for a detailed description of these assignments, formatting requirements, and the grading rubrics.

Quizzes (10%)

For the first half of the course, Units 1 to 7 (not Unit 2), there will be weekly 12-minute, 10 multiple-choice questions quizzes. The best five of six will count toward your grade. Each quiz is worth 2% of your final course grade.

This course requires the use of Respondus LockDown Browser (no webcam) to proctor your online Quizzes within CourseLink. Use of Lockdown Browser has been implemented to maintain the academic integrity of the quizzes. You must [download and install LockDown Browser](#) to complete the practice test and the quizzes.

Please be sure to review the Using Respondus Lockdown Browser instructions by selecting **Content** on the navbar to locate **Assessments** in the table of contents panel.

Important Note: There is a mandatory practice test that you are required to take before the online exam. The purpose of the practice test is to ensure that Respondus LockDown Browser is set up properly and that you are comfortable using the software.

If you have any questions regarding the use of Respondus Lockdown Browser or if you encounter any technical issues during the practice test or final exam, please contact CourseLink Support at courselink@uoguelph.ca or 519-824-4120 ext. 56939.

Online Discussions (15%)

A key component of this course is the online discussions. These enable you to stay connected to course material and to create a supportive learning community with your classmates. The collaborative nature of online discussions enables you to learn from each other and to consolidate your own course specific knowledge.

There will be six (6) online discussions, each focusing on specific topic. The first and last discussions will not be graded and offer the opportunity for introductions and final reflections with your peers. For the remaining four discussions, you must choose to participate in THREE out of the FOUR discussions for grading. If you complete all four, then only the first three will be graded. You will be assessed on the frequency of your posts (**at least TWO posts over TWO days**), as well as the depth and breadth of answer(s) and how well you incorporate the course material with the discussion topics. The questions for each discussion are posted to respective discussion forums:

1. Week 2 Discussion: Introductions (not graded, but mandatory)
2. Week 4 Discussion: Personal Stress Management (graded)
3. Week 6 Discussion: Drug Use and Misuse (graded)
4. Week 8 Discussion: Physical Activity for Fitness and Health (graded)
5. Week 9 Discussion: Social Support, Relationships, and Communication (graded)
6. Week 11 Discussion: Closing (not graded, but mandatory)

Top 10 List (10%)

Over the course, you will learn about many topics/concepts and their impact on life. With all of the knowledge, what would be your TOP 10 must know, “didn’t know,” lessons learned, or “aha!” moments? You should rank order your top 10, with #1 as the most important.

For each topic/idea, explain why you chose it and its relevance to your life (or life in general). Be creative, and design this like a poster if you want! You can have a “Top 10 list” as a poster, and then on another page/document, the explanations for each listing.

This assignment is for you to be reflective and thoughtful about the course.

Online Test

There will be one online test that will cover Units 8 – 12 (Chapters 4, 7, 8, 14, and 16) and the course website Units. The format will be 75 multiple choice (up to D) questions, with 15 randomized questions per chapter.

This course requires the use of Respondus LockDown Browser (no webcam) to proctor your online test within CourseLink. Use of Lockdown Browser has been implemented to maintain the academic integrity of the test. You must [download and install LockDown Browser](#) to complete the practice test and the test.

Please be sure to review the Using Respondus Lockdown Browser instructions by selecting **Content** on the navbar to locate **Assessments** in the table of contents panel.

Important Note: There is a mandatory practice test that you are required to take before the online exam. The purpose of the practice test is to ensure that Respondus LockDown Browser is set up properly and that you are comfortable using the software.

If you have any questions regarding the use of Respondus Lockdown Browser or if you encounter any technical issues during the practice test or final exam, please contact CourseLink Support at courselink@uoguelph.ca or 519-824-4120 ext. 56939.

Course Technology Requirements and Technical Support

CourseLink System Requirements

You are responsible for ensuring that your computer system meets the necessary [system requirements](#). Use the [browser check](#) tool to ensure your browser settings are compatible and up to date. (Results will be displayed in a new browser window).

<https://opened.uoguelph.ca/student-resources/system-and-software-requirements>

<https://courselink.uoguelph.ca/d2l/systemCheck>

Respondus LockDown Browser Requirements

Respondus LockDown Browser is a locked browser for taking quizzes in CourseLink. It prevents you from printing and copying; using other operating software; using search engines (e.g., going to another URL); communicating via instant messaging; and it blocks non-web-related software (e.g., Adobe PDF, Microsoft Word).

In order to use Respondus LockDown Browser, your computer system must meet the following [system and software requirements](#).

If you have any questions about the system and software requirements, contact [CourseLink Support](#).

Microsoft Teams Requirements

This course may use **Microsoft Teams** as a video communication tool. A Webcam, a microphone, and headphones/speakers may be needed. Review [System requirements for Teams for personal use \(microsoft.com\)](#) to ensure that your computer meets the technical requirements.

<https://support.microsoft.com/en-us/office/system-requirements-for-teams-for-personal-use-dae0234b-839c-4f85-ae75-d14ad2baa978>

Zoom Requirements

This course may use **Zoom** as a video communication tool. A Webcam, headphones/speakers may be needed. Review the [Zoom information for students \(uoguelph\)](#) to ensure that your computer meets the technical requirements.

<https://support.opened.uoguelph.ca/students/courselink/tools/content/zoom>

Technical Skills

As part of your online experience, you are expected to use a variety of technology as part of your learning:

- Manage files and folders on your computer (e.g., save, name, copy, backup, rename, delete, and check properties);
- Install software, security, and virus protection;
- Use office applications (e.g., Word, PowerPoint, Excel, or similar) to create documents;
- Be comfortable uploading and downloading saved files;
- Communicate using email (e.g., create, receive, reply, print, send, download, and open attachments);

- Navigate the CourseLink learning environment and use the essential tools, such as **Dropbox**, **Quizzes**, **Discussions**, and **Grades** (the instructions for this are given in your course);
- Access, navigate, and search the Internet using a web browser (e.g., Firefox, Internet Explorer); and
- Perform online research using various search engines (e.g., Google) and library databases.

Technical Support

If you need any assistance with the software tools or the CourseLink website, contact CourseLink Support.

Acceptable Use

The University of Guelph has an [Acceptable Use Policy](#), which you are expected to adhere to.

<https://www.uoguelph.ca/ccs/infosec/aup>

Communicating with Your Instructor

During the course, your instructor will interact with you on various course matters on the course website using the following ways of communication:

- **Announcements:** The instructor will use **Announcements** on the Course Home page to provide you with course reminders and updates. Please check this section frequently for course updates from your instructor.
- **Ask Your Instructor Discussion:** Use this discussion forum to ask questions of your instructor about content or course-related issues with which you are

unfamiliar. If you encounter difficulties, the instructor is here to help you. Please post general course-related questions to the discussion forum so that all students have an opportunity to review the response. To access this discussion forum, select **Discussions** from the **Tools** dropdown menu.

- **Email:** If you have a conflict that prevents you from completing course requirements, or have a question concerning a personal matter, you can send your instructor a private message by email. The instructor will respond to your email within 72 hours.

Netiquette Expectations

For distance education courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.

Inappropriate online behaviour will not be tolerated. Examples of inappropriate online behaviour include:

- Posting inflammatory messages about your instructor or fellow students;
- Using obscene or offensive language online;
- Copying or presenting someone else's work as your own;
- Adapting information from the Internet without using proper citations or references;
- Buying or selling term papers or assignments;
- Posting or selling course materials to course notes websites;
- Having someone else complete your quiz or completing a quiz for/with another student;
- Stating false claims about lost quiz answers or other assignment submissions;
- Threatening or harassing a student or instructor online;
- Discriminating against fellow students, instructors, and/or TAs;
- Using the course website to promote profit-driven products or services;
- Attempting to compromise the security or functionality of the learning management system;
- Sharing your username and password; and
- Recording lectures without the permission of the instructor.

Submission of Assignments to Dropbox

All individual written assignments for this course should be submitted electronically via the online **Dropbox** tool. When submitting your assignments using the **Dropbox** tool,

do not leave the page until your assignment has successfully uploaded. To verify that your submission was complete, you can view the submission history immediately after the upload to see which files uploaded successfully. The system will also email you a receipt. Save this email receipt as proof of submission.

Be sure to keep a back-up copy of all of your assignments in the event that they are lost in transition. In order to avoid any last-minute computer problems, your instructor strongly recommend you save your assignments to a cloud-based file storage (e.g., Google Docs), or send to your email account, so that should something happen to your computer, the assignment could still be submitted on time or re-submitted.

It is your responsibility to submit your assignments on time as specified on the Schedule. Be sure to check the technical requirements and make sure you have the proper computer, that you have a supported browser, and that you have reliable Internet access. Remember that **technical difficulty is not an excuse not to turn in your assignment on time**. Don't wait until the last minute as you may get behind in your work.

If, for some reason, you have a technical difficulty when submitting your assignment electronically, please contact your instructor or [CourseLink Support](https://support.opened.uoguelph.ca/contact).

<https://support.opened.uoguelph.ca/contact>

Late Policy

The individual written assessments will be accepted up to one week following the due date and with a penalty of 10% (e.g., 78%-10% = 68%). So, if you think you can earn a better grade by taking some extra time, do it. You don't need to email the instructor or your TA. Submit your assessments to the **Dropbox** tool.

Assignments submitted after one, but within two weeks after the deadline, will have a 25% late penalty. Assignments submitted more than two weeks after the deadline will not be accepted.

Extensions will be considered for medical reasons or other extenuating circumstances. If you require an extension, discuss this with the instructor as soon as possible and well before the due date. Barring exceptional circumstances, extensions will not be granted once the due date has passed. These rules are not designed to be arbitrary, nor are they inflexible. They are designed to keep you organized, to ensure that all students have the same amount of time to work on assignments, and to help to return marked materials to you in the shortest possible time.

Obtaining Grades and Feedback

Unofficial assessment marks will be available in the **Grades** tool of the course website.

Your instructor will have grades posted online within 2 weeks of the submission deadline, if the assignment was submitted on time. Once your assignments are marked you can view your grades on the course website by selecting **Grades** from the **Tools** dropdown menu on the navbar. Your course will remain open to you for seven days following the last day of the final exam period.

University of Guelph degree students can access their final grade by logging into [WebAdvisor](#) (using your U of G central ID). Open Learning program students should log in to the [OpenEd Student Portal](#) to view their final grade (using the same username and password you have been using for your courses).

Rights and Responsibilities When Learning Online

For distance education (DE) courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.

For more information on your rights and responsibilities when learning in the online environment, visit [Rights and Responsibilities](#).

<http://opened.uoguelph.ca/student-resources/rights-and-responsibilities>

Turnitin Originality Check

In this course, your instructor will be using Turnitin, integrated with the CourseLink **Dropbox** tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

All individual assignments submitted to the **Dropbox** tool will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that you will be able to educate and empower yourself in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.

University Standard Statements

Copies of Assignments

Keep paper and/or other reliable back-up copies of all assignments: you may be asked to resubmit work at any time.

Accessibility

University of Guelph Degree Students

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required, however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to make a booking at least 14 days in advance, and no later than November 1 (fall), March 1 (winter) or July 1 (summer). Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time.

For more information, contact Accessibility Services at 519-824-4120 ext. 56208, [email Accessibility Services](mailto:accessibility@uoguelph.ca) or visit the [Accessibility Services website](https://wellness.uoguelph.ca/accessibility/).

Open Learning Program Students

If you are an Open Learning program student who requires academic accommodation, please [contact the Academic Assistant to the Executive Director](#). Please ensure that you contact us before the end of the first week of your course (every semester) in order to avoid any delays in support. Documentation from a health professional is required for all academic accommodations. Please note that all information provided will be held in confidence.

If you require textbooks produced in an alternate format (e.g., DAISY, Braille, large print or eText), please [contact the Academic Assistant to the Executive Director](#) at least two months prior to the course start date. If contact is not made within the suggested time frame, support may be delayed. It is recommended that you refer to the course outline before beginning your course in order to determine the required readings.

The provision of academic accommodation is a shared responsibility between OpenEd and the student requesting accommodation. It is recognized that academic accommodations are intended to “level the playing field” for students with disabilities.

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The [Academic Misconduct Policy](#) is detailed in the Undergraduate Calendar.

Plagiarism Detection Software

Students should be aware that faculty have the right to use software to aid in the detection of plagiarism or copying and to examine students orally on submitted work. For students found guilty of academic misconduct, serious penalties, up to and including suspension or expulsion from the University can be imposed.

Recording of Materials

Presentations which are made in relation to course work—including lectures—cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

Disclaimer

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings, changes in classroom protocols, and academic schedules. Any such changes will be announced via CourseLink and/or class email.

This includes on-campus scheduling during the semester, mid-terms and final examination schedules. All University-wide decisions will be posted on the [COVID-19 website](#) and circulated by email.
