

NUTR*3090 COURSE OUTLINE – WINTER 2025

1. CALENDAR DESCRIPTION

The epidemiology, pathophysiology, and role of nutrition will be considered in the prevention and management of several major chronic conditions including cardiovascular diseases, disorders of energy balance and diabetes mellitus. There is an emphasis on developing the skills for high-risk individual management approaches.

Credit Weight: 1.0 credits

Course Hours: 3-3 (3 lecture; 3 lab/seminar)

Pre-Requisite(s): (BIOM*2000 or BIOM*3200), FRHD*3070, NUTR*2050, (NUTR*3190 or

NUTR*3210), STAT*2090

Co-Requisites(s): FRHD*3400

Restriction(s): NUTR*3040. Registration is limited to students registered in the B.A.Sc.

AHN major.

2. COURSE DESCRIPTION

The epidemiology, pathophysiology, and role of nutrition will be considered in the prevention and management of several major chronic conditions including cardiovascular diseases, disorders of energy balance and diabetes mellitus. There is an emphasis on developing the skills for high-risk individual management approaches.

3. TIMETABLE

Lecture: Location:

Final Exam: TBD

4. INSTRUCTIONAL SUPPORT

Course Instructor: Dalia El Khoury, RD PhD delkhour@uoguelph.ca
Telephone: 519-824-4120 ext. 56326

Office: MACS 226

Office Hours: By appointment

Teaching Assistant: Alyssa Ramuscak

Email: aramusca@uoguelph.ca

Office: virtual

Office Hours: By appointment

Teaching Assistant: Aiyu Liu Email: aiyu@uoguelph.ca

Office: virtual

Office Hours: By appointment

Teaching Assistant: Hanieh Dehghan Niri

Email: dehghann@uoguelph.ca

Office: virtual

Office Hours: By appointment

5. LEARNING RESOURCES

Required Resource(s):

In this course, we use many resources in different formats. Many of those references and resources are listed in the course's schedule and are available on Courselink.

Recommended Resource(s):

Krause and Mahan's Food and the Nutrition Care Process, 16th Edition, by Janice L Raymond, MS, RDN, CSG and Kelly Morrow, MS, RDN, FAND. Elsevier Canada. September 27, 2022. Cost range: \$260-\$280.

6. LEARNING OUTCOMES

At the completion of the course, successful students will be able to:

- Demonstrate knowledge of the epidemiology (who gets it), etiology (causes), pathophysiology (what happens to their bodies when people get it), natural history, current prevention, and treatment methods (medical, behavioural and nutritional) of the conditions in Canada.
- 2. Demonstrate oral and written skills in the nutrition care process for individuals by conducting and evaluating: A. nutrition assessment, B. making a nutrition diagnosis, C. planning and executing nutrition interventions (counselling or nutrition education), D. monitoring progress and E. documentation.
- **3.** Demonstrate knowledge of the basic organization of the Canadian health care system and federal legislation, regulations, and policies applicable to applied nutrition practice.
- **4.** Demonstrate knowledge of current systems for creating and translating evidence into

- practice as it relates to provision of nutrition services to prevent and treat the conditions under study.
- **5.** Demonstrate skills in finding and evaluating evidence to support or change nutrition services for the conditions under study.
- **6.** Demonstrate skills in combining evidence, reflection, and consultation in developing nutrition care plans.
- **7.** Demonstrate beginning skills in self-reflection, self-directed learning, teamwork, and assessment of others' learning and professional practice skills to improve practice.
- **8.** Explain Indigenous histories, Peoples and communities and identify how these unique determinants relate to Indigenous health status and health care in Canada.
- **9.** Develop cultural competencies and an awareness of the concept of cultural safety with respect to working with Indigenous Peoples and communities.
- **10.** Reflect on your role as a future health care provider and educator working with Indigenous populations in a variety of geographic and cultural settings.
- **11.** Demonstrate understanding of the sensory evaluation of food.

12.

7. TEACHING AND LEARNING ACTIVITIES

Week	Topics	Assigned Readings & Guest Speakers	Notes & Due Dates
1	Introduction, nutrition assessment overview, explanatory and process	See detailed schedule	Read articles
	models for health behavior change		
2	Diabetes Diet and Physical activity assessment		Read articles
3	Diabetes An introduction to sensory evaluation		Read articles
4	Finish Diabetes Introduction to CVD Interpret assessment data against population standards Plan diets using Beyond the Basics		Read articles

Week	Topics	Assigned Readings &	Notes &
		Guest Speakers	Due Dates
5	Dyslipidemia		Read articles
	An indigenous lens on		
	dietetics		Groups work on diabetes case
			study for next week
			Work on patient scenario due
			Feb 14
6	Dyslipidemia		Midterm to end of Diabetes –
	Diabetes case study		Feb 11
			Submit patient scenario to
			Courselink and send to
			counsellor by Feb 14
7	Hypertension		Patient to collect 3-day diet
	Day 1 of Counselling		record
8	Clinical CVD		Patient submits 3-day record
	Energy regulation		to Courselink AND sends to
	Complete assessment and		counsellor by Mar 4
	teaching plan		
			Observer submits CC guide 1 to Courselink and sends to
			counsellor by Mar 7
			Counsellor analyses
			assessment and develops
			initial teaching plan - submit to
			Courselink by Mar 13
9	Excess weight		Midterm to end of CVD – Mar
	management		11
	Day 2 of Counselling		
			Observer submits CC guide 2
			to Courselink and sends to
			counsellor by Mar 20
10	Adult and pediatric obesity		Groups work on case study
	Day 3 of Counselling		

Week	Topics	Assigned Readings & Guest Speakers	Notes & Due Dates
11	Underweight/eating disorders Nutrition in older adults Dyslipidemia case study		Groups work on case study
12	Putting it Together Metabolic syndrome case study		Counsellor submits ADIME chart notes by Apr 4 Counsellor submits reflection
			Patient submits reflection by Apr 4
			Each group submits their recorded sessions by Apr 4

Note: This is a tentative schedule; however, due to various unknown factors there may be changes. Any changes will be announced during class and an announcement will be posted on the CourseLink site.

8. ASSESSMENT DETAILS

Assessment	LOs Addressed	Due Date	% of Final
Midterm 1	Assessment and DM	Feb 11 (class time)	10
	(multiple choice and short		
	answer questions)		
Midterm 2	CVD (multiple choice and	Mar 11 (class time)	15
	short answer questions)		
Final	Cumulative (multiple	TBD	25
	choice and short answer		
	questions)		
		In class	
Group Case Studies In lab	3 discussions (first session,	assessment of	
	Feb 14, is practice)	participation Feb	9
		14, Mar 28,	
		Apr 4	
Counselling Assignment	Practice Counselling		

Assessment	LOs Addressed	Due Date	% of Final
Patient scenario	Create a realistic scenario	Feb 14 (to be	5
	from	submitted by 5:30	
	template	PM in compliance	
		with the rules	
		related to winter	
		break)	
Patient 3-day food record	Complete	Mar 4	5
Patient reflection on counselling	Written reflection on	Apr 4	2.5
	experience		
Counsellor nutrition Assessment,	Based on Day 1 visit and	Mar 13	10
initial teaching plan and BTB plan	patient		
	record		
ADIME counsellor chart notes		Apr 4	10
Counsellor reflection		Apr 4	2.5
Observer reflections x 2	Using CC guide	Mar 7, Mar 20	6
		Total:	100%

9. COURSE STATEMENTS

Land Acknowledgement:

We acknowledge that the University of Guelph resides on the ancestral lands of the Attawandaron people and the treaty lands and territory of the Mississaugas of the Credit. We recognize the significance of the Dish with One Spoon Covenant to this land and offer our respect to our Anishinaabe, Haudenosaunee and Métis neighbours as we strive to strengthen our relationships with them. Acknowledging them reminds us of our important connection to this land where we learn and work.

Course Website:

There is a course website at http://courselink.uoguelph.ca. All components of this course will be housed on the CourseLink site including this course outline, assignments, and links to further resources. Your assignments will be submitted through the Dropbox function. Marks and feedback will also be released on the site. Please familiarize yourself with this website as soon as possible and visit it regularly throughout the semester.

Late Assignments:

Late assignments will be accepted up to 5 days following the due date and will receive a penalty of 10% per day EXCEPT under documented grounds for compassionate consideration.

Assignments submitted more than one week late without documented grounds will receive a grade of zero. If you are going to hand an assignment in late, you must contact your course instructor to inform them when you will be submitting your assignment.

Receipt of Grades:

After you receive a grade on CourseLink, please review your feedback. Any inquiry or dispute over the grade must be made within two weeks from the date they are posted. If you fail to protest any grade during this time limit, changes to the grade will not be considered. <u>Grades will be based on the Grading Procedures outlined in the Undergraduate Calendar.</u>

Turnitin Software:

In this course, your instructor will be using Turnitin, integrated with the CourseLink Dropbox tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

All submitted assignments will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that students will be able to educate and empower themselves in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.

10.UNIVERSITY STATEMENTS

E-mail communication:

As per university regulations, all students are required to check their <uoguelph.ca> e-mail account regularly: e-mail is the official route of communication between the University and its students.

When you cannot meet a course requirement:

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. See the Undergraduate Calendar for information on regulations and procedures for <u>Academic Consideration</u>.

Drop date:

Courses that are one semester long must be dropped by the end of the last day of classes; two-semester courses must be dropped by the last day of classes in the second semester. The regulations and procedures for <u>Dropping Courses</u> are available in the Undergraduate Calendar.

Copies of out-of-class assignments:

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

Accessibility:

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required, however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to make a booking at least 14 days in advance, and no later than November 1 (fall), March 1 (winter) or July 1 (summer). Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time.

More information: www.uoguelph.ca/sas

Academic misconduct:

The <u>Academic Misconduct Policy</u> is outlined in the Undergraduate Calendar.

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it.

Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

Instructors **shall not** determine if academic misconduct has occurred. This is up to the Associate Dean Academic's office. Instructors shall not assign a grade of zero even if they believe that the student has committed some form of academic misconduct (e.g., copied material from a website like CourseHero) on an assignment or exam.

Instructors <u>can</u> determine if a student has poorly paraphrased and/or improperly cited material and can provide a grade accordingly as long as this is clearly identified as part of the assessment criteria via a rubric or other assessment tools.

For more information about Academic Integrity resources and how to prevent Academic Misconduct see: https://csahs.uoguelph.ca/faculty-research/hub-teaching-learning-excellence/academic-integrity

Recording of materials:

Presentations which are made in relation to course work—including lectures—cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

Resources:

The <u>Academic Calendars</u> are the source of information about the University of Guelph's procedures, policies and regulations which apply to undergraduate, graduate and diploma programs.

Disclaimer:

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings, changes in classroom protocols, and academic schedules. Any such changes will be announced via Courselink and/or class email.

This includes on-campus scheduling during the semester, mid-terms and final examination schedules. All University-wide decisions will be posted on the COVID-19 website (https://news.uoguelph.ca/2019-novel-coronavirus-information/) and circulated by email.

Illness:

Medical notes will not normally be required for singular instances of academic consideration, although students may be required to provide supporting documentation for multiple missed assessments or when involving a large part of a course (e.g., final exam or major assignment).

COVID-19 Safety Protocols:

For information on current safety protocols, follow these links:

- https://news.uoguelph.ca/return-to-campuses/how-u-of-g-is-preparing-for-your-safe-return/
- https://news.uoguelph.ca/return-to-campuses/spaces/#ClassroomSpaces

Please note, that these guidelines may be updated as required in response to evolving University, Public Health or government directives.

Appendix:

For those students enrolled in the Area of Emphasis in Dietetics: The Integrated Competencies for Dietetic Education and Practice (2020; http://www.pdep.ca/):

Performance Indicators (PI) that are met by this course:

Practice Competency	Performance Indicator	Learning Activity			
1 0		Learning Activity			
1. Food and Nutrition Exp	1. Food and Nutrition Expertise				
1.01 Apply understanding of	Demonstrate understanding of the	Mid-term and final Know How exams			
food composition and food science	sensory evaluation of food	and in-class lab			
	Identify sources of micronutrients	Mid-term and final Know How exams and case studies			
	and macronutrients in food				
	Identify sources of non-nutrient functional components in food	Mid-term and final Know How exams and case studies			
1.02 Apply understanding of	Demonstrate awareness of	Know How in-class case study			
food environments	Indigenous values and ways of				
	knowing related to food				
	environments				
1.03 Apply understanding of human nutrition and metabolism	Demonstrate understanding of the role of nutrients and other food components	Mid-term and final Know How exams and case studies			
inctabolisii	Demonstrate understanding of the processes of ingestion, digestion, absorption and excretion				
	Demonstrate understanding of metabolism				
1.04 Apply understanding of dietary requirements and guidelines	Demonstrate understanding of dietary requirements across the lifespan, in health and disease	Mid-term and final Know How exams and case studies			
	Demonstrate understanding of factors affecting energy balance in determining dietary requirements				
	Demonstrate understanding of current nutrition recommendations and dietary guidelines				

	Demonstrate understanding of how deficiencies and toxicities of nutrients affect health Demonstrate understanding of the role of dietary supplements		
1.05 Apply understanding of dietary practices	Demonstrate understanding of behavioural theories relevant to food choice and eating	•	Mid-term and final Know How exams and case studies
	Demonstrate understanding of social aspects of food choice and eating	•	Mid-term and final Know How exams and case studies
	Demonstrate understanding of psychological aspects of food choice and eating	•	Mid-term and final Know How exams and case studies
	Demonstrate understanding of the impact of financial resources on food choice and eating	•	Mid-term and final Know How exams and case studies
	Demonstrate awareness of the role of Indigenous traditional / country foods in dietary practices	•	Know How in-class case study
1.06 Integrate nutrition care principles and practices	Demonstrate knowledge of human physiological systems in health and disease	•	Mid-term and final Know exams and case studies
	Demonstrate knowledge of the etiology and pathophysiology of nutrition-related diseases	•	Mid-term and final Know exams and case studies
	Demonstrate understanding of nutrition- related disease management strategies	•	Mid-term and final Know How exams and case studies
	Demonstrate understanding of the Nutrition Care Process	•	Mid-term and final Know How exams and case studies

Practice Competency	Performance Indicator	Learning Activity			
2. Professionalism and E	2. Professionalism and Ethics				
2.01 Practice within the context of Canadian diversity	Demonstrate knowledge of the diversity in Canadian society.	Know How case studies			
	Demonstrate knowledge of the diversity in Canadian society.	Know How case studies			
	Demonstrate understanding of the impact of diverse attitudes and values on health	Know How case studies			
	Identify structures that impact health equity and social justice	Know How in-class Indigenous case study			
2.02 Act ethically and with integrity	Treat others with respect	Show How video-taped counselling session			
integrity	Act in a manner that engenders trust	session			
	Act in accordance with ethical principles				
	Accept accountability for decisions and actions				

		1	
	Act in a manner that upholds the reputation of the profession		
	Maintain professional boundaries		
2.03 Practice in a manner that promotes cultural safety	Act with sensitivity and humility with regard to diverse cultural groups	•	Know How in-class case study, Show How video-taped counselling session
	Demonstrate awareness of Indigenous values and ways of knowing related to health and wellness	•	Know How in-class case study
	Demonstrate awareness of the ongoing impact of colonization / residential schools / intergenerational trauma / systemic racism on Indigenous peoples in Canada	•	Know How in-class case study
	Act with awareness of how one's own biases, beliefs, behaviours, power and privilege may affect others	•	Know How case studies, Indigenous in-class case study
2.04 Employ a client-centred approach	Demonstrate knowledge of principles of a client-centred approach	•	Know exams, case studies, video counselling
	Ensure informed consent	•	Show How video counselling
	Identify client perspectives, needs and assets	•	Show How case studies/video counselling
	Engage client in collaborative decision making	•	Show How video counselling
	Maintain client confidentiality and privacy	•	Show How video counselling
2.06 Ensure appropriate and secure documentation	Document relevant information accurately and completely, in a timely manner	•	Show How video counselling assignment, ADIME note
2.08 Manage time and workload	Prioritize activities	•	Show How case studies/video counselling
Workload	Meet deadlines	•	Show How all assignments
2.09 Employ an evidence- informed approach to practice	Demonstrate knowledge of factors that inform decision making	•	Know exams, case studies
	Demonstrate knowledge of the process of evidence-informed decision making	•	Know exams, case studies
	Make evidence-informed decisions	•	Know How exams, case studies
2.10 Engage in reflective practice	Demonstrate knowledge of principles of reflective practice	•	Know How video counselling assignment
2.12 Maintain comprehensive	Use relevant terminology	•	Show How case studies/video
and current knowledge			counselling
relevant to practice	Identify relevant sources of information	•	Show How case studies, video counselling
	Critically appraise information relevant to practice	•	Show How case studies, video counselling
	Identify emerging information relevant to practice	•	Show How case studies, video counselling

2.13 Use information	Use information management systems	•	Show How Case studies, counselling
management technologies to			- navigating literature search tools,
support practice			PEN
